2 Metres

6 Feet

**Wash your
hands**

Advice to public

They're not social distancing!

Although we have no powers to enforce social distancing, we would advise you to keep two metres from them to help keep everyone safe

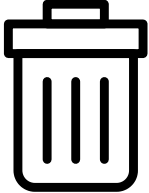

They're blocking access

Please could we ask you to move further away from the steps/edge of the prom/[wherever] so we can keep socially distanced access for everyone?

Which toilets are open?

[see reverse of sheet] When using toilets please try to have one person at a time in there, and wash your hands after touching communal surfaces such as taps

The bins are overflowing

For the summer we have 130 extra bins along our seafronts, which are emptied by our contractors morning and night. For public safety they cannot empty promenade bins during the day. Please take your rubbish home with you if you cannot find a bin.

Thanks for coming

Thanks for coming to our beach - please maintain social distancing, wash your hands regularly, and help to keep us all safe

Can I buy an ice cream/beer/coffee?

Several kiosks are opening selling food. However, you must maintain social distancing when purchasing, and must not congregate outside afterwards to enjoy your food - please move away from the business.
